

Network on Pesticides Steering Committee

Updated Appendix B.2 and B.3 to the Minutes of the 1st meeting on the MRLs procedures

Last revision 8 March 2016

Following discussions in the Pesticides Residues section of the Standing Committee on Plants, Animals, Food and Feed (PAFF) Committee, changes were made to Appendices B.2 (interim process) and B.3 (new process) because of re-prioritisation of some substances and taking into account on-going assessments under other procedures (renewal, confirmatory data).

The following changes occurred:

- Glyphosate was moved from the former process to the interim process because it was decided in agreement with the Commission to wait for the renewal of the approval under Reg (EU) No 1141/2010.
- Bitertanol was added to the interim process following request from the Commission.
- Dithiocarbamates and cypermethrins were moved from the interim process to the future process as agreed in the PAFF Committee.
- Nine new active substances were added to the work program following their approval.
- The order of the substances within these appendices corresponds to the order in which EFSA intends to process them, including a footnote for the substances that are on hold. In the previous version (25.08.2014) all substances that were on hold were included at the end of the list.
- The RMS for malathion was corrected.

APPENDIX B.2 – ACTIVE SUBSTANCES TO BE REVIEWED UNDER THE INTERIM PROCESS – LAST REVISION 8 MARCH 2016

EFSA-Q-number	Active substance	RMS
EFSA-Q-2008-511	Cinidon-ethyl ^(a)	UK
EFSA-Q-2009-00119	Mepiquat ^(a)	UK
EFSA-Q-2009-00118	Fuberidazole ^(a)	UK
EFSA-Q-2009-00100	Chloridazon ^(a)	DE
EFSA-Q-2009-00135	Tralkoxydim ^(a)	UK
EFSA-Q-2009-00052	Fluazifop-P ^(a)	FR

- (a): MRL review under the interim process was already finalised for this active substance.
- (b): Completeness check under the interim process was already finalised for this active substance; there is no longer any possibility to provide further data.
- (c): Although this active substance needs to be treated with high priority, EFSA needs to await finalisation of the confirmatory data process before proceeding with the MRL review. It is therefore likely that this substance will be moved further down the list.
- (d): Although this active substance needs to be treated with high priority, EFSA needs to await submission of data by the RMS before proceeding with the MRL review. It is therefore likely that this substance will be moved further down the list.
- (e): EFSA needs to await the outcome of the renewal of the approval before proceeding with the MRL review for this active substance. It is therefore likely that this substance will be moved further down the list.

- (a): EFSA needs to await the outcome of another assessment before proceeding with the MRL review for this active substance (renewal of the approval, confirmatory data for the approval, assessments in other food sector area,...). It is therefore likely that this substance will be moved further down the list.
- (b): A decision on approval or non-approval of these active substances was not yet taken; they were therefore not yet formally included in the MRL review program. However, as these substances are pending a decision by the European Commission and Member States, it is likely that they substances will be added to the MRL review program in the future.
