### Vision

We seek to become the first and only exhibition that caters to all companies with a prominent role in building, construction, supplies and engineering industries, as well as gives a great opportunity for those wishing to access and work in the Middle East.

### Message

We are concerned to attract thousands of manufacturers and suppliers in various fields from Jordan and around the world to meet and communicate with thousands of contractors, engineers, traders, specialists and businessmen inside and outside the Kingdom so that to review and make aware of the latest developments in the construction sector globally.

### Main task

Reflecting the real position of leadership in construction sector that to be organized in collaboration with the supporting industries to be an effective tool to enhance the construction products in the market, export contracting business at Arab and international levels and increase the efficiency of Jordanian companies through local expertise.

### Objectives:

1. Raising the level of awareness with respect to opportunities related to the economic and social impact of building, construction and engineering industries.
2. Promoting, creating, and developing proactive partnerships between local, Arab and international institutions.
3. Shedding light on the use of local resources and expertise, and develop technical and professional workforce engaged in contracting.
4. Jordan is significant in hosting exhibitions and conferences for its effective role in the region in terms of reconstruction and future of building.
5. Discussing and presenting of everything that is new in the world of construction, investment and engineering industries.
6. Reviewing the sources of building, construction and engineering industries at the local, Arab and international levels.
7. Driving economic, social and development in Jordan.

## Sectors and Target Groups:

### Sectors

#### 1. Interior areas and finishing for buildings.

In light of constructional projects being built in millions of dollars annually at housing, commercial, hotel, outlets, medical and educational facilities levels in the region, this category of products will be a popular choice for many visitors.

#### Products that can be displayed:

- Lighting
- Marble and stones
- Paints
- Woods
- Coatings, adhesives and sealants
- Floors, ceilings, walls and other interior finishing
- Porcelain and ceramic

If you are a supplier of these products, this exhibition will be the ideal stand for your business development.

#### About audience:

Contractors | Architects | Engineers | Construction | Consultants | Real Estate Developers.

#### 2. Construction tools and building materials

To increase the efficiency of work, it is essential that project managers and others working on large-scale projects to realize the different types of equipment and their specific uses be aware that they can start and continue to improve.

#### Products that can be displayed:

- Metals, iron and aluminum
- Electronic equipment
- Safety equipments
- Testing and measuring instruments
- Construction components
- Equipment and construction machinery
- Hand tools
- Construction equipment and tools

#### About audience:

Contractors | Architects | Engineers | Construction | Consultants | Real Estate Developers.

### 3. Concrete

The concrete sector will provide a stand for suppliers, manufacturers and distributors of all products and services with respect to concrete field at international level.

Products that can be displayed:

- Aggregation equipment and processing
- Pumping equipment and fittings
- Tools and finishing equipment
- Precast concrete products
- Ready Mixed Concrete
- Baring
- Equipment for production of blocks, concrete floors and tiles

About audience

Civil Engineers | Structural Engineers | Concrete Mixers & Concrete Plant Managers | Scaffolding & Baring Managers | Factory Managers | Project Managers | Purchasing Managers | Contractors | Subcontractors.

4. Factories, machinery and vehicles  
Leading manufacturers and suppliers of factories, machinery and construction vehicles will provide their latest technologies in this area dedicated to the product category.

Products that can be displayed:

- Soil dredging machines
- Finishing tools and lifting equipment
- Processing and handling of materials
- Power generation units
- Equipment, crane and means of transportation
- Commercial fleet
- Construction and commercial vehicles
- Cranes and access equipment

About audience

Contractors | Factory and Station Managers | Vehicle Fleet Managers | Electrical and Mechanical Engineers | Civil Engineers | Structural Engineers | Technical Managers and Operations Managers | Concrete Mixing and Scaffolding Managers | Project Managers | Purchasing and Procurement Managers | Consultants and Technical Observers

### 5. Building equipment and special constructions

Building equipment and special constructions will be a forum for manufacturers and distributors of window, door and façade products at international level to connect and acquire potential customers with thousands of buyers for built environment products. Building ceilings are an important aspect of the built environment sector and this category of products will provide visitors with a great opportunity to meet with concerned suppliers.

Products that can be displayed:

- Insulation
- Elevators and escalators
- Private construction (prefabricated buildings, swimming pools etc.)
- Windows, doors and sun protection systems
- Irrigation systems
- Design of open and green spaces
- Outdoor furniture
- Roofing, binding and glazing

About audience

Architects | Interior Design Experts | Builders | Developers | Contractors of Door, Window and Façade | Contractors of Glass and Metal Works | Site Coordination Engineers | Project Managers | Facilities Managers | Façade Consultants | Investors and wholesalers

#### 6. Construction technologies and innovations

Materials, new energy sources, design approaches, developments in digital technology and massive data are creating a wave of innovation in construction. Products in this category will therefore become more significant and conducive for scaling up efficiency.

Products that can be displayed:

- Robots
- Smart buildings and automation
- Software and IT solutions
- Waste management systems
- 3D printing
- Building Information Modeling
- Green building materials
- Professional services

About audience

Engineers | Contractors | Construction Consultants | Architects | Real Estate Developers | Interior design experts.

#### 7. Mechanical, electrical and engineering services

The upsurge in construction sector in the Arab Gulf States is a key factor accelerating growth of mechanical and electrical and engineering services market. Among the products that visitors will be looking for:

Products that can be displayed:

- Plumbing and water technologies
- Refrigeration and air conditioning
- Security and fire protection
- Solar power
- Cooling areas
- Electrical systems
- Heating, ventilation and air conditioning
- Maintenance and commercial cleaning

About audience

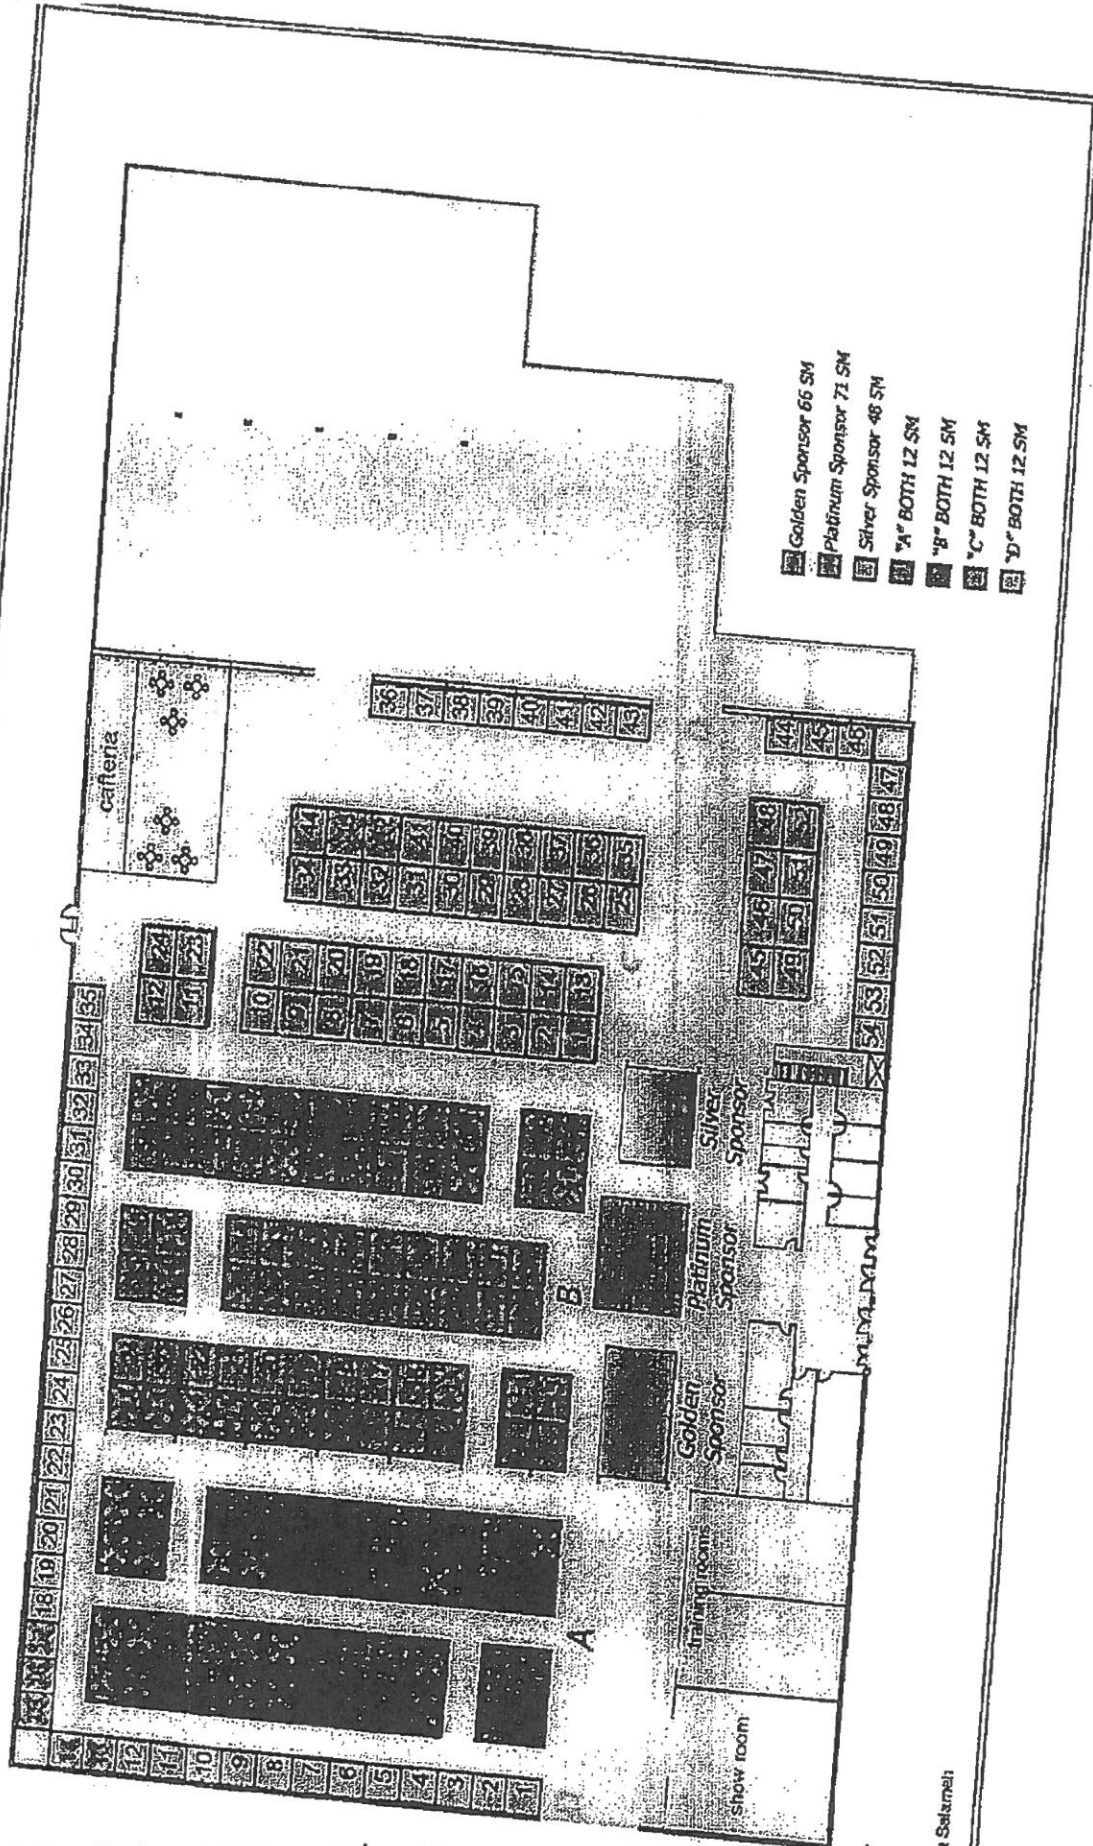

Contractors | Contractors of Mechanical, Electrical and Sanitary Engineering Engineers | Construction Consultants.

The exhibition will be a unique individual contact center where exhibitors represent the region's leading companies.

Target groups

- Consultancy offices
- Housing companies
- Banks
- Insurance companies
- Mining companies
- Jordan Petroleum Refinery Company
- Amman Stock Exchange
- Oil and petroleum companies
- Exchange companies
- Electricity companies
- Governmental authorities
